

MATERIALS EXCHANGE PROGRAM

THE PROGRAM

The Materials Exchange Program facilitates the exchange of materials between organizations, companies, and service providers to divert from landfill, lower costs, and maximize the value of and recovery of resources.

WHAT WE DO

Through our online network and staff support program, our team will match and connect organizations looking to sustainably dispose of materials and then facilitate exchanges between them. All our efforts employ a business approach to improve both your bottom line and environmental performance.

OUR SERVICES

MATERIALS EXCHANGE NETWORK

Enrollment in our online platform allows you to offer or request materials with other businesses.

www.partnersinprojectgreen.com/exchange

WASTE MANAGEMENT SOLUTIONS

Hands-on personalized staff support helps you identify and implement solutions.

1

ENROLL

Online Material Exchange:
www.partnersinprojectgreen.com/exchange

Waste Management Solutions:
jcarnevale@trca.on.ca

2

MATERIAL ASSESSMENT

Partners in Project Green will:

- Perform a site visit to assess your materials streams & challenges.
- Work with you to collect all the data necessary to identify possible matches

3

FIND SOLUTIONS

Partners in Project Green will:

- Research & find organizations who can solve your waste challenges
- Identify multiple options so you can choose what's best for you
- Connect potential exchange parties to find solutions

4

EXCHANGE SUPPORT

Partners in Project Green will:

- Set up & facilitate meetings
- Manage & support all aspects of the exchange
- Be there every step of the way to keep things on track

2014 RESULTS:

20+ EXCHANGES | 200+ TONNES

Toronto Zoo, Chrysler, Velcro, Trillium Health Partners, Knowlton Development Corporation, Goodwill, and many more!
