

Material Exchange

DIVERT WASTE

REDUCE COSTS

DRIVE CHANGE

THE PLATFORM

Material Exchange facilitates the exchange of material between businesses and non-profit organizations to divert waste from landfill, support local communities, and move towards a circular economy.

HOW IT WORKS

Members of Partners in Project Green provide information about material they would like to offer. We then facilitate interactions between participants to realize and promote successful exchanges. Membership is not required to receive materials.

1 SUBMIT

Submit key information about your material online:
www.partnersinprojectgreen.com/exchange

2 CONNECT

- Connect with non-profit organizations who can accept your material for reuse
- If the material is not reusable, you are connected with recyclers

3 EXCHANGE

- Select your preferred organization to work with
- Determine terms of agreement (i.e. transport, logistics, etc.)
- Exchange the material to divert it from landfill

4 PROFILE

- Share and profile your success story with our community through social media, news stories, and case studies
